

Portable Corral Panels

Strong, Versatile & Easy-to-Handle

*** Ideal for
Crowding**

Heavy-Duty Portable Panels

Titan West's portable panels are made with a 1-1/4", high-tensile square tubes and feature cut-to-fit, vertical-square-tube spacers every four feet. As standard equipment, Titan West installs a special unhook-prevention device on every portable panel. Panels available in 60" (6-bar) or 69" (7-bar) heights and 10', 12', 14' and 16' lengths.

Portable Panel Trailer

Titan West's Portable Panel Trailer is constructed of square and rectangle tubing for a lifetime of dependable service. The axle is 4" ID pipe, capable of safely transporting up to 30-10' or 12' portable panels. The trailer is equipped with a 2" heavy-duty, hammerblow coupler, sidewind jack and tie-down strap and 15" wheels and tires.

**Portable Walk-Thru
Panel**
